

Change log STAND				299-E
Date	Areas in STAND affected by the changes	Document which has been changed	What has been changed	Internal doc. id
11.03.2019	<b>Process Product development</b> subprocess Develop a product	Purpose of labelling of Stock Keeping Unit (SKU) and Distribution Unit (DU)	Added a clarification that SSCC should not be reused until after a minimum of 6 years	147
		Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	149
		Transport information on pallet with example of transport label	Removed duplicate information.	150
		Recommended traceability methods in the value chain	Clarified which transport information is to be included on the transport label for the different pallet types	162
	<b>Process Production</b> subprocess Conduct production	Purpose of labelling of Stock Keeping Unit (SKU) and Distribution Unit (DU)	Added a clarification that SSCC should not be reused until after a minimum of 6 years	147
		Recommended traceability methods in the value chain	Document the decision why STAND has decided that SSCC should not be reused until after 6 years	162
	<b>Process Produktion</b> subprocess Palletization / Storage	Purpose of labelling of Stock Keeping Unit (SKU) and Distribution Unit (DU)	Added a clarification that SSCC should not be reused until after a minimum of 6 years	147
		Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	149
		Transport information on pallet with example of transport label	Removed duplicate information.	150
		Recommended traceability methods in the value chain	Clarified which transport information is to be included on the transport label for the different pallet types	162
	<b>Process Production</b> subprocess Logging Tracking Information	Recommended traceability methods in the value chain	Document the decision why STAND has decided that SSCC should not be reused until after 6 years	162
	<b>Process Delivery</b> subprocess Pick, pack and mark the delivery	Purpose of labelling of Stock Keeping Unit (SKU) and Distribution Unit (DU)	Added a clarification that SSCC should not be reused until after a minimum of 6 years	147
		Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	149
		Transport information on pallet with example of transport label	Removed duplicate information.	150
		Recommended traceability methods in the value chain	Clarified which transport information is to be included on the transport label for the different pallet types	162
	<b>Process Delivery</b> subprocess Pick up from supplier, transport to distributor / retailer	Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	149
		Transport information on pallet with example of transport label	Removed duplicate information.	150
	<b>Process Delivery</b> subprocess Receipt	Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	147
		Product information on Distribution Unit (DU), with example of Distribution Unit (DU) label	Added a clarification that SSCC should not be reused until after a minimum of 6 years	149
		Transport information on pallet with example of transport label	Removed duplicate information.	150
Recommended traceability methods in the value chain		Clarified which transport information is to be included on the transport label for the different pallet types	162	
<b>Process Tracking</b> subprocess Recall / withdraw a product	Recommended traceability methods in the value chain	Document the decision why STAND has decided that SSCC should not be reused until after 6 years	162	
	Actions to be performed when an incident occurs	Added a link to an animation showing how to use the Tradesolution ReCall Portal	163
